

# لیست جدیدترین مقالات انگلیسی

N.	Subject	Title	Reference	Pages
1	Advanced technologies	Can surface modification provide Longer mold life?	Die casting Eng.N.5 2009	36-38
2	Advanced technologies	A comparison of mechanical properties for die cast 380 alloys containing 0.1% or 0.3% magnesium	Die casting Eng.N.5 2009	34-35
3	Al-Si aluminium alloys	Thermal analysis applied to estimation of solidification kinetics of Al-Si aluminium alloys	Inter. Cast metals N.5 2009	345-352
4	Al-Si –Mg alloy	Influence of temper condition on microstructure and mechanical properties of semisolid metal processed Al-Si – Mg alloy A356	Inter. Cast metals N.6 2009	416-421
5	Aluminium alloy	Optimisation of friction stir welding process parameters to weld cast aluminium alloy A413 an experimental approach	Inter. Cast metals N.5 2009	367-373
6	Aluminium alloy	Comparison of mechanical properties of die cast aluminum alloys: cold v. hot chamber die casting and high v, low speed filling die casting	Inter. Cast metals N.5 2009	374-381
7	Aluminum	Understanding the regulations for shipping aluminum dross	Die casting Eng. N.1 2009	32-35
8	Casting	Fluidity of Al based metal matrix composites containing Al <sub>2</sub> O <sub>3</sub> and SiC particles	Inter. Cast metals N.6 2009	430-437
9	Centrifugal casting	On assessment of processing variables in vertical centrifugal casting technique	Inter. Cast metals N.5 2009	382-389
10	Continuous casting	Analysis of Ohno continuous casting process using one dimensional steady state heat transfer model	Inter. Cast metals N.6 2009	438-447
11	Design	Optimization of HPDC process using flow simulation case studies	Die casting Eng. N.4 2009	24-28
12	Design	Advances in robotic vesting finishing	Die casting Eng. N.4 2009	34-36
13	Design	Die casting technology for the challenges of the future	Die casting Eng. N.4 2009	38-40
14	Die casting	Simple, low temperature heat treating of conventional die castings	Die casting Eng. N.1 2009	50-51
15	Die casting	Zinc die casting's hidden treasures	Die casting Eng. N.2 2009	38-40
16	Die casting	Overview of zinc alloy die casting product and process research	Die casting Eng. N.2 2009	42-44
17	Die casting	New high fluidity zinc die casting alloy : mechanical properties, corrosion resistance and applications	Die casting Eng. N.2 2009	46-48
18	Die casting	Worldwide report zinc die casting alloys: past, present and	Die casting Eng.	49-55

		future	N.2 2009	
19	Die casting	Zinc die casting alloys and sustainability	Die casting Eng. N.2 2009	56
20	Die casting	Interzinc champions zinc die casting	Die casting Eng. N.2 2009	58-59
21	Die casting	Interzinc student design competition	Die casting Eng. N.2 2009	60-61
22	Die casting	Case studies involving ATM high pressure die casting: the leaner and greener approach to the design of runners and parts	Die casting Eng. N.2 2009	62-66
23	Die casting	Preliminary mechanical properties of T5 heat treated conventional C380 die casting (part 1)	Die casting Eng. N.4 2009	30-31
24	Die casting	Systematic examination if T5 heat treating conditions on the hardness of C380 die casting (part 2)	Die casting Eng. N.4 2009	32-33
25	Die casting	Die casting technology for the challenges of the future	Die casting Eng. N.4 2009	38-40
26	Die casting	Case studies on innovative die casting machines	Die casting Eng. N.4 2009	42-45
27	Die casting	Cooling water system for die casting machines	Die casting Eng. N.4 2009	48-50
28	Die casting	Developing castability index for magnesium die casting alloys	Inter. Cast metals N.5 2009	357-366
29	Die casting	Comparison of mechanical properties of die cast aluminum alloys: cold v. hot chamber die casting and high v, low speed filling die casting	Inter. Cast metals N.5 2009	374-381
30	Die casting machines	The casting work cell: spin off applications from the USCAR large thin casting project		42-47
31	Die casting	Porosity simulation for high pressure die castings	Die casting Eng. N.3 2009	47-49
32	Ductile iron	Analysis of ductile cast iron solidification : numerical simulation and experimental validation	Inter. Cast metals N.5 2009	390-400
33	Ductile iron	Influence of residual aluminium on solidification pattern of ductile iron	Inter. Cast metals N.6 2009	401-410
34	Energy	Energy star tools for die casters		48-50
35	Energy	Focus on energy conservation , minimize your energy consumption by reusing your waste heat you have already paid for it	Die casting Eng. N.1 2009	42-43
36	Energy	Minimizing the cost of aluminum melting	Die casting Eng. N.1 2009	44-49
37	Energy	Simple, low temperature heat treating of conventional die castings	Die casting Eng. N.1 2009	50-51
38	Energy	Simple, low temperature heat treating of conventional die castings	Die casting Eng. N.1 2009	50-51

39	Energy	An energy – efficient, space-saving , two – platen hybrid die cast machine	Die casting Eng. N.1 2009	52-55
40	Energy	Practical experience with an energy efficient, micro-porous refractory castable in various molten aluminum contact applications	Die casting Eng. N.1 2009	56-60
41	Energy saving	Furnace energy saving Myths	Die casting Eng. N.1 2009	36-39
42	Fluidity	Fluidity of Al based metal matrix composites containing Al <sub>2</sub> O <sub>3</sub> and SiC particles	Inter. Cast metals N.6 2009	430-437
43	Flux	Mechanism of dissolution of flux containing Mn-Al compacts in molten aluminium	Inter. Cast metals N.5 2009	353-356
44	Furnace	Furnace energy saving Myths	Die casting Eng. N.1 2009	36-39
45	Furnace	Minimizing the cost of aluminum melting	Die casting Eng. N.1 2009	44-49
46	High chromium cast iron	Microstructure and properties of high chromium cast irons: effect of heat treatments and alloying additions	Inter. Cast metals N.6 2009	448-456
47	High pressure	Case studies involving ATM high pressure die casting: the leaner and greener approach to the design of runners and parts	Die casting Eng. N.2 2009	62-66
48	High pressure	Porosity simulation for high pressure die castings	Die casting Eng. N.3 2009	47-49
49	High pressure	Practices for improving melt quality for high pressure die casting	Die casting Eng. N.1 2009	28-31
50	High pressure	Application of one dimensional numerical simulation to optimize process parameters of a thin wall casting in high pressure die casting	Die casting Eng. N.3 2009	38-42
51	Magnesium	The international magnesium association report	Die casting Eng. N.6 2009	18-19
52	Magnesium	Recycling magnesium fosters growing use of secondary magnesium parts in OEM applications	Die casting Eng. N.6 2009	20-22
53	Magnesium	How to promote growth in magnesium die casting	Die casting Eng. N.6 2009	24-27
54	Magnesium	Why buy American magnesium die castings?	Die casting Eng. N.6 2009	28-30
55	Magnesium	Surface treatment of cast AZ91 alloy	Die casting Eng. N.6 2009	31-35
56	Magnesium	Development of a light and cost effective magnesium roof bracket	Die casting Eng. N.6 2009	36-37
57	Magnesium	Producing a quality magnesium part	Die casting Eng. N.6 2009	38-40
58	Magnesium	Die casters take stance against magnesium tariff	Die casting Eng. N.6 2009	16-17
59	Magnesium	Developing castability index for magnesium die casting	Inter. Cast metals	357-

		alloys	N.5 2009	366
60	Modelling	Investigation into the factors affecting the thermal stress of the water jacket in the Siamese area	Die casting Eng. N.3 2009	26-29
61	Modelling	Minimizing air entrainment in a shot sleeve during slow shot stage	Die casting Eng. N.3 2009	34-37
62	Modelling	Analysis of Ohno continuous casting process using one dimensional steady state heat transfer model	Inter. Cast metals N.6 2009	438-447
63	Molten aluminium	Mechanism of dissolution of flux containing Mn-Al compacts in molten aluminium	Inter. Cast metals N.5 2009	353-356
64	molten aluminum	Practical experience with an energy efficient, micro-porous refractory castable in various molten aluminum contact applications	Die casting Eng. N.1 2009	56-60
65	Plunger lubricants	The hidden heart of die casting	Die casting Eng.N.5 2009	10-12
66	Plunger lubricants	Die & plunger lubrication and plunger tips	Die casting Eng.N.5 2009	14-17
67	Plunger lubricants	Control of plunger clearance	Die casting Eng.N.5 2009	18-20
68	Plunger lubricants	Preserving profitability quality & the environment how plunger lubricants can help	Die casting Eng.N.5 2009	22-25
69	Plunger lubricants	Improving performance of hot working tools through automatic potential control nitriding	Die casting Eng.N.5 2009	26-27
70	R&D	The 2010 NADCA R&D strategic plan and roadmap overview got productivity	Die casting Eng. N.4 2009	18-22
71	Residual aluminium	Influence of residual aluminium on solidification pattern of ductile iron	Inter. Cast metals N.6 2009	401-410
72	Semisolid metal	Influence of temper condition on microstructure and mechanical properties of semisolid metal processed Al-Si – Mg alloy A356	Inter. Cast metals N.6 2009	416-421
73	Simulation	Autonomous optimization: determining the process window before casting the first part	Die casting Eng. N.3 2009	22-25
74	Simulation	Investigation into the factors affecting the thermal stress of the water jacket in the Siamese area	Die casting Eng. N.3 2009	26-29
75	Simulation	Casting simulation drives component development for HPDC	Die casting Eng. N.3 2009	30-33
76	Simulation	Minimizing air entrainment in a shot sleeve during slow shot stage	Die casting Eng. N.3 2009	34-37

77	Simulation	Application of one dimensional numerical simulation to optimize process parameters of a thin wall casting in high pressure die casting	Die casting Eng. N.3 2009	38-42
78	Simulation	Computer simulation of the thixo molding process	Die casting Eng. N.3 2009	44-46
79	Simulation	Optimization of HPDC process using flow simulation case studies	Die casting Eng. N.4 2009	24-28
80	Solidification	Thermal analysis applied to estimation of solidification kinetics of Al-Si aluminium alloys	Inter. Cast metals N.5 2009	345-352
81	Solidification	Analysis of ductile cast iron solidification : numerical simulation and experimental validation	Inter. Cast metals N.5 2009	390-400
82	Solidification	Influence of residual aluminium on solidification pattern of ductile iron	Inter. Cast metals N.6 2009	401-410
83	Superalloys	Development of heat conductor technique for single crystal components of superalloys	Inter. Cast metals N.6 2009	422-429
84	Thermal analysis	Thermal analysis applied to estimation of solidification kinetics of Al-Si aluminium alloys	Inter. Cast metals N.5 2009	345-352
85	Thin wall casting	Application of one dimensional numerical simulation to optimize process parameters of a thin wall casting in high pressure die casting	Die casting Eng. N.3 2009	38-42
86	Thixo molding	Computer simulation of the thixo molding process	Die casting Eng. N.3 2009	44-46
87	Vacuum casting	Rapid fabricating process of zinc alloy moulds based on vacuum casting process	Inter. Cast metals N.6 2009	411-416
88	Welding	Optimisation of friction stir welding process parameters to weld cast aluminium alloy A413 an experimental approach	Inter. Cast metals N.5 2009	367-373
89	Zinc	Zinc die casting's hidden treasures	Die casting Eng. N.2 2009	38-40
90	Zinc	Overview of zinc alloy die casting product and process research	Die casting Eng. N.2 2009	42-44
91	Zinc	New high fluidity zinc die casting alloy : mechanical properties, corrosion resistance and applications	Die casting Eng. N.2 2009	46-48
92	Zinc	Worldwide report zinc die casting alloys: past, present and future	Die casting Eng. N.2 2009	49-55
93	Zinc	Zinc die casting alloys and sustainability	Die casting Eng. N.2 2009	56
94	Zinc	Interzinc champions zinc die casting	Die casting Eng. N.2 2009	58-59
95	Zinc alloy	Rapid fabricating process of zinc alloy moulds based on vacuum casting process	Inter. Cast metals N.6 2009	411-416
